THE WORLD'S FIRST
REALISTIC BLOWJOB MACHINE

The Complete Autoblow User's Guide

What is the Autoblow?

The Autoblow is the newest development in male sex toy technology. It is a self contained, robotic, male masturbation toy. This male sex toy differs from other male sex toys due to its hands-free motorized sucking feature. The machine contains a coil of spring loaded beads wrapped around a specially formulated silicone sleeve. The beads are attached to a motor, which jerks your penis up and down, mimicking the feeling of a blowjob. About 90% of Autoblow owners report achieving orgasm within 3-15 minutes.

The Autoblow has only been on the market since mid-2008, there have been more than 100,000 units sold to satisfied customers all around the world. The Autoblow is currently the number 2 best selling sex toy in history, behind the Fleshlight. By 2010, the Autoblow is projected to surpass the Fleshlight in yearly sales.

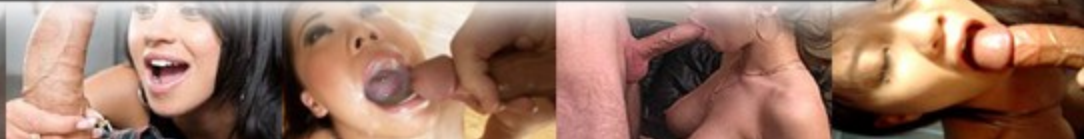

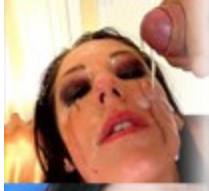

How To Use The Autoblow

The Autoblow is easy to use. First, lubricate your penis using a water based lubricant such as Astroglide, KY Liquid, or even your favorite body lotion. Then slide your erect penis into the robotic mouth. Turn on the motorized sucking feature using the attached controller. Vary the speed of the sucking motion until you are ready to cum. When you are ready to orgasm, you may do so inside of the machine or outside (it doesn't care). Most of our users report that they prefer to orgasm inside of the mouth while the sucking motion is still active. Please note that it is possible to use a condom with the Autoblow, which does help with cleanup.

How to Clean Your Autoblow

Both models of the Autoblow – the Autoblow Blast and Autoblow Max can be easily cleaned using a damp washcloth with mild soap. If you had an orgasm inside of your Autoblow, first pour out any liquid that might be remaining inside. Then, insert the damp washcloth inside of the mouth and twist the washcloth around, making sure to clean all noticeable lubricant or semen.

Rinse the washcloth and repeat one time. It only takes 1-2 minutes to clean the Autoblow.

I orgasm too quickly during sex. Can the Autoblow help?

Yes. In fact, several leading sex therapists have advised their clients to use the Autoblow as part of a stamina training regimen, designed to help them last longer in bed. Other male sex toys, such as pocket pussies, require manual stimulation, similar to normal masturbation. The Autoblow, on the other hand, is the only male sex toy which mimics another person handling the man's penis. Since it is hands free, the user can learn to control his orgasm without using his own hands – a vital step in learning to last longer in bed.

Am I too old to use the Autoblow?

Our satisfied customers range in age from 18 to 75. We have many older customers who became tired by low quality male sex toys such as a pocket pussy or other type of cheap male masturbation sleeve. No one is too old to use the Autoblow. If your penis still gets hard (pills or no pills), you can enjoy the benefits of the Autoblow.

How long will the Autoblow last?

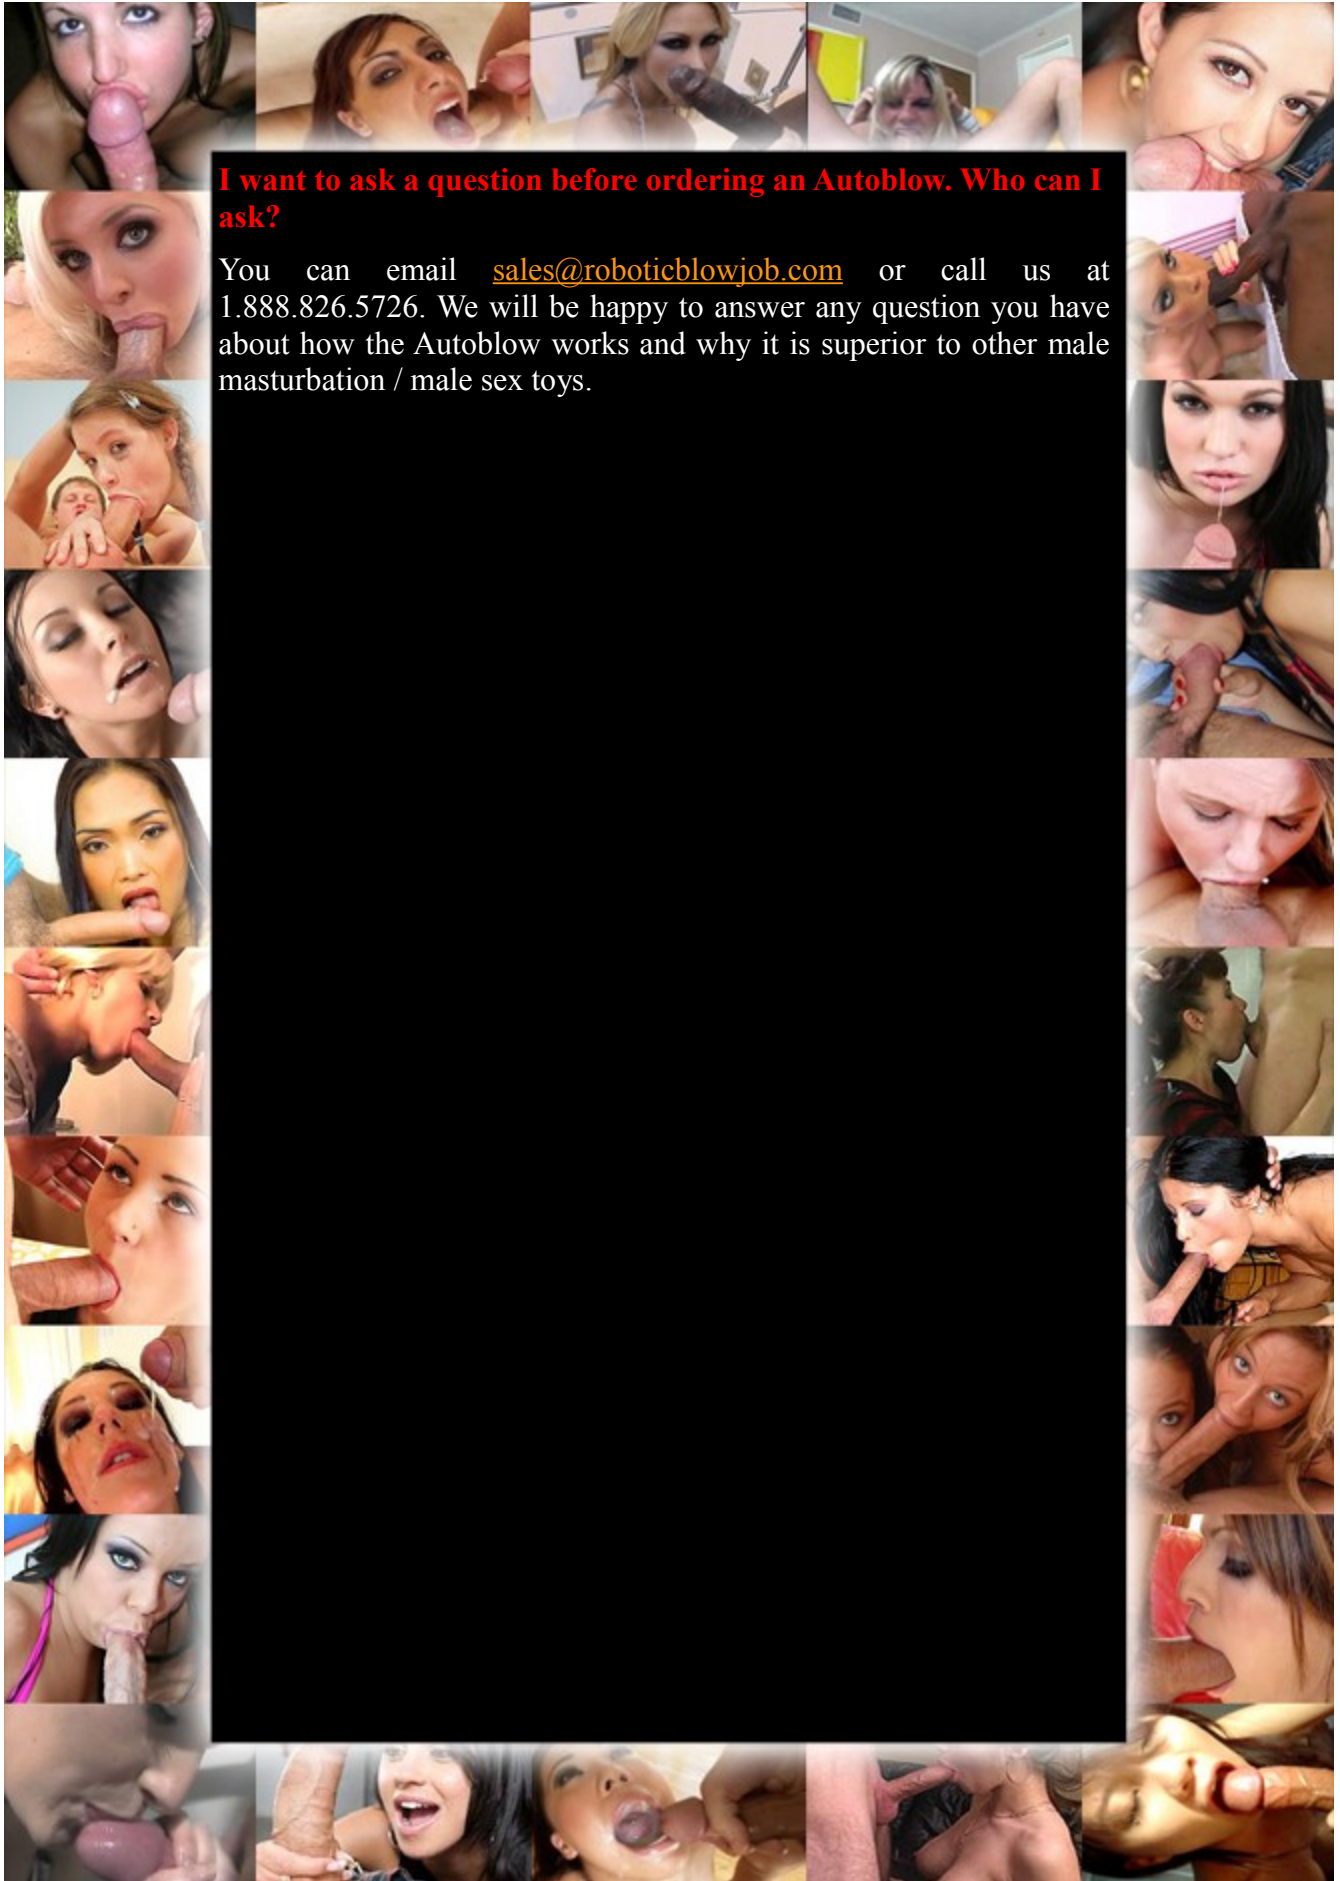

The Autoblow, unlike a cheap pocket pussy or other cheap male masturbation toy, is built to last for years. Although the Autoblow does have a motor, we have designed it to be durable and long lasting. If you add up the cost per orgasm using our male sex toy, you will find that in the long run, it is nearly free.

Can I marry my Fleshlight?

While rules vary from country to country, but we are pretty sure that you cannot marry the Autoblow. We did read that in Kazakhstan you can marry a pocket pussy, but not the Autoblow. Go figure.

How should I store my Autoblow?

The Autoblow male masturbation machine does not have any special storage requirements. Just keep it out of direct sunlight, and keep the temperature somewhere between freezing and 90 F.

I want to ask a question before ordering an Autoblow. Who can I ask?
